

Marek Surák

Developer UI

For the last 3 years I have worked as a frontend web developer in the company whose web pages visit thousands of people daily. Now I am looking for a new opportunity where I could gain new experiences, professional growth and use my potential. I am also looking for a team, where I could help improve friendly and great working atmosphere.

Education

- 2013 – 2017 **Faculty of Information Technology**
Brno University of Technology
- 2018 – 2018 **Faculty of Applied Informatics**
Tomas Bata University

I haven't successfully finished universities mentioned above, although I put them here, because I earned many good experiences during the studies. On FIT I worked with many interesting projects implemented in **C**, **C++** or **Java**. One year later I tried part-time study. I decided to quit and take time to get better at specific technologies and things I use daily at work. I don't regard it as a failure but valuable experience.

- Languages **English** – intermediate, **Spanish** – beginner, **German** - beginner

Professional experience

- 2016 – 2019 **Seznam.cz,a.s**
Frontend web developer
- Job description Primary task was developing UI components to web applications according to graphic designs. Components were implemented in responsive design across different devices and platforms. One of another task was testing these components using different types of tests like unit tests, regression tests or e2e tests. In our team I also used to spend some time learning some knowledge and report gained technological skills to my colleagues.
- Technologies **Javascript, React.js, Angular.js, Node.js, IMA.js, Less, Git, Webdriver, Jest**
- Projects [Sbazar.cz](#), [Sreality.cz](#), Mobile version of [Sauto.cz](#)
